

# TE1260 Mini plug

| Application           |                                                                          |
|-----------------------|--------------------------------------------------------------------------|
| Connector             | Thermocouple and RTD circuits                                            |
| Design                | Suited for small wires and mineral insulated cables                      |
| Materials             | Glass filled thermoplastic body with original thermocouple material pins |
| Temperature rating    |                                                                          |
| Temperature limit     | Maximum 200°C                                                            |
| Construction          |                                                                          |
| Body                  | Glass filled thermoplastic material                                      |
| Design                | Rugged one body design                                                   |
| Molded barriers       | Prevent short circuit                                                    |
| Wire size             |                                                                          |
| Accepts wires         | From 0,002 mm to 0,6 mm                                                  |
| Cable jacket diameter | Maximum 4,5 mm                                                           |

## Ordering code

\*This datasheet is purely indicative, build-up of model code may vary from this datasheet.
