

# TE1060D Standard plug dual circuit

| Applications       |                                                                          |
|--------------------|--------------------------------------------------------------------------|
| Connector          | Thermocouple and RTD for duplex circuits                                 |
| Contacts           | Ensuring good contact even in demanding applications                     |
| Materials          | Glass filled thermoplastic body with original thermocouple material pins |
| Temperature rating |                                                                          |
| Temperature limit  | Maximum 200°C                                                            |
| Construction       |                                                                          |
| Body               | Glass filled thermoplastic material                                      |
| Design             | Central cover screw for quick wiring                                     |
| Molded barriers    | Prevent short circuit                                                    |
| Wire size          |                                                                          |
| Accepts wires      | from 0,2 mm. to 2,0 mm.                                                  |
| Cable diameter     | Maximum 8,0 mm                                                           |

## Ordering code

\*This datasheet is purely indicative, build-up of model code may vary from this datasheet.
